## SRS Sponsors New Webinar:

### **“Profiting from the Connecticut Commercial PACE Program”**

*How financial institutions can profit from emerging energy efficiency investment opportunities*

TRUMBULL, CT – FEBRUARY 21, 2013 – Sustainable Real Estate Solutions, Inc. (SRS), the industry leader in on-demand building energy assessment and proprietary benchmarking software, today announced it is sponsoring a new webinar: *Profiting from the Connecticut Commercial PACE Program*. The webinar will be presented at 1:00 PM EST February 21<sup>st</sup> by Anthony J. Buonicore of Buonicore Partners, third party administrator of Connecticut’s Commercial Property Assessed Clean Energy (C-PACE) Program. Panelist will include Jessica Bailey, Director of Connecticut’s Commercial & Industrial PACE program and Bert Hunter, Chief Investment Officer of Connecticut’s Clean Energy Finance and Investment Authority. The webinar will be recorded and posted on the Building Energy Performance Assessment News ([BEPAnews](#)) website, where replays will be available at no cost.

The webinar presentation will provide insight to the Standards, tools and underwriting best practices needed by the financial community to participate in and profit from emerging energy efficiency investment opportunities of which Connecticut’s C-PACE program is the leading example.

It also describes how Connecticut's C-PACE program has incorporated innovative technical and financial underwriting best practices to insure that all stakeholders can have a high degree of confidence in the projected energy savings. ([download presentation](#)).

Brian McCarter, SRS CEO said "SRS is proud to sponsor this webinar that describes how Connecticut's new PACE program represents the cumulative experience and best practices developed from other operating PACE programs nationwide". He added, "The CT PACE program underwriting process is expected to provide the proving ground for large scale adoption of energy efficiency investment that other programs around the country may chose to emulate".

#### **About Sustainable Real Estate Solutions, Inc. (SRS)**

SRS, an industry leader in on-demand building energy performance assessment and proprietary benchmarking software, delivers Sustainable Real Estate Manager<sup>®</sup> a cloud-based software-as-a-service (SaaS) workflow platform enabling building stakeholders across the entire energy retrofit life cycle, from project development to recurring measurement and verification. Its Peer Building Benchmarking<sup>™</sup> database contains over 125,000 buildings nationwide encompassing 20 property types comprising 3.3 billion square feet, over \$7.8 billion in annual energy costs and \$635 million in annual water/sewer costs and has reinvented public and commercial real estate's energy efficiency benchmarking best practice.
