For Immediate Release:

McCarter to Address Energi Summit on Energy Efficiency

Presentation to focus on Technology Platforms Enabling Energy Retrofit Best Practice

TRUMBULL, CT – June 1, 2012 – Sustainable Real Estate Solutions, Inc. (SRS), the industry leader in on-demand building energy performance assessment and proprietary benchmarking software, today announced CEO Brian J. McCarter will address the *Energi Summit on Energy Efficiency* in Orlando, FL on June 5, 2012.

McCarter's presentation will provide a unique perspective on how energy auditors and contractors are leveraging new software that incorporates best practices in a technically sound, consistent and fully-transparent scope of work that meets the investment underwriting needs of key stakeholders. The presentation will also demonstrate how this technology provides comfort to all stakeholders that the projected building energy savings will actually materialize.

“SRS, through its broad-base of clients encompassing energy service companies (ESCOs), energy auditors, lenders, insurers, property owners and managers is at the forefront of this exciting new industry”, noted McCarter. He added, “Sharing best practices with leading building energy efficiency professionals assures the continuous evolution of our industry, thereby

unlocking the full investment potential associated with energy efficiency in commercial and public buildings.”

About Sustainable Real Estate Solutions, Inc. (SRS)

SRS, an industry leader in on-demand building energy performance assessment and proprietary benchmarking software, delivers Sustainable Real Estate Manager[®] a cloud-based software-as-a-service (SaaS) workflow platform enabling building stakeholders to assess, benchmark, measure and verify the energy and sustainability performance of their properties. Its Peer Building Benchmarking[™] module contains data on over 125,000 buildings nationwide encompassing 20 property types comprising 3.3 billion square feet, over \$7.8 billion in annual energy costs and \$635 million in annual water/sewer costs and has reinvented public and commercial real estate’s energy efficiency benchmarking best practice.
