For Immediate Release:

McCarter to Address NAESCO Meeting Attendees

Leveraging Data & Technology to Accelerate Energy Efficiency Investments

TRUMBULL, CT – June 4, 2012 – Sustainable Real Estate Solutions, Inc. (SRS), the industry leader in on-demand building energy performance assessment and proprietary benchmarking software, today announced CEO Brian J. McCarter will address the *National Association of Energy Service Companies (NAESCO) Meeting* in Milwaukee, WI on June 7, 2012.

McCarter's presentation will provide a unique perspective on how energy service companies (ESCOs) are leveraging new preliminary assessment software to provide building owners with "actionable" information to support investment decisions. The presentation will also describe how ESCOs using this new data driven approach are winning more investment grade audit commitments from prospective customers.

"SRS, through its broad-base of clients encompassing energy service companies (ESCOs), energy auditors, lenders, insurers, property owners and managers is at the forefront of this exciting new industry best practice", noted McCarter. He added, "Sharing best practices with leading building energy efficiency professionals assures the continuous evolution of our industry,

thereby unlocking the full-potential to accelerate commercial and public building stakeholder energy efficiency investment.”

About Sustainable Real Estate Solutions, Inc. (SRS)

SRS, an industry leader in on-demand building energy performance assessment and proprietary benchmarking software, delivers Sustainable Real Estate Manager[®] a cloud-based software-as-a-service (SaaS) workflow platform enabling building stakeholders to assess, benchmark, measure and verify the energy and sustainability performance of their properties. Its Peer Building Benchmarking[™] module contains data on over 125,000 buildings nationwide encompassing 20 property types comprising 3.3 billion square feet, over \$7.8 billion in annual energy costs and \$635 million in annual water/sewer costs and has reinvented public and commercial real estate’s energy efficiency benchmarking best practice.
